Nov. 7, 2010

Dear Executive Director

I'm very concerned over the raise in the monthly water bill. The notice indicates the current bill of \$24.13 would almost double to \$43.69. No utility, and certainly not my salary, has had an increase at this rate. Please consider adjusting this to a much lower, if any, increase as the water company has also had increases. I appreciate your time and interest while reviewing this matter.

Sincerely,

Jan Lynch
